SKILLS

Languages:	Python, C, C++, Java, SQL
Web Technologies:	HTML, CSS, JavaScript, React.js
Tools and platforms:	Git, GitHub, Power BI, Excel, VS Code, Jupyter Notebook, Google Colab
Libraries:	NumPy, Pandas, Matplotlib, Seaborn, Scikit-Learn
Soft Skills:	Problem Solving, Time Management, Work Ethic, Negotiation

PROJECTS

Automated Deadlock Detection System GitHub	Apr' 25
- Built interactive Deadlock Detection System with React, Python, Tailwind CSS, and for real-time resource allocation visualization. - Implemented Banker's Algorithm in TypeScript/Python to detect deadlocks, circular waits, and safe sequences with execution traces. - Created interactive Resource Allocation Graph visualizer with custom nodes, animated edges, and dynamic deadlock highlighting. Tech Stack: React, TypeScript, Python, Tailwind CSS, ReactFlow, React Query, Banker's Algorithm.	
Astro ChatBot GitHub	Mar' 25
- Build an interactive Astronomy Chat Bot with React and Tailwind CSS, delivering a visually immersive space-themed interface with real-time AI responses. - Integrated the Gemini API to power intelligent conversations and image analysis, featuring a custom voice assistant for seamless hands-free interaction. - Implemented secure, persistent authentication using Supa base and Google OAuth, coupled with React Query for efficient state management and history tracking. Tech Stack: Python, React, Tailwind, OAUTH, Super base, Google Generative AI (Gemini).	

TRAINING

Cipher Schools Mental health Simulator Link	Jun' 25 – Jul' 25
- Completed a 70-hour industry-oriented Java DSA training program focused on core programming, OOP principles, and data structure implementations at Cipher Schools. - Developed a Mental Health Simulator desktop app using Java Swing GUI with arrays, stacks, queues, linked lists, and hash maps for mood tracking, stress assessment, and session management. - Optimized algorithmic performance and modular OOP architecture, enabling scalable offline wellness features with secure login and JSON data persistence. Tech Stack: Java, Java Swing (GUI), JDK, OOP, Data Structures and Algorithms, JSON, VS Code	

CERTIFICATIONS & CERTIFICATES

Cloud Computing – NPTEL	Apr' 25
Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – Oracle	Aug' 25
Unrevealing Python towards ML/AI – CSE Pathshala	Mar' 24
Microlearning in Data Science – BoardInfinity	Feb' 24

EXTRA CURRICULAR ACTIVITIES

Competed in the 24-hour Code-A-Hunt Hackathon organized by Coding Blocks	Mar' 24
Secured 1 st place in 7-day cybersecurity v/s ethical hacking workshop organized by Secuneus	Nov' 23

EDUCATION

Lovely Professional University Bachelor of Technology Computer Science and Engineering; CGPA: 7.95	Phagwara, Punjab Aug' 23 – Present
Bhashyam Junior College Intermediate PCM; Percentage: 91%	Guntur, Andhra Pradesh Jun' 21 – Apr' 23
Bhashyam High School Matriculation Percentage: 100%	Tanuku, Andhra Pradesh Jul' 20 – May' 21
